Percentage: 88.60%

Bachelor of Engineering in Computer Science & Engineering

University Institute of Technology, Burdwan University
Current Semester: 5th Semester
Recent Semester Grade: 9.13 SGPA

PROJECT WORKS

GYM LANDING PAGE

I had developed a Gym Landing Page designed to attract potential members by showcasing the gym's facilities, services, and community atmosphere. The page features an engaging layout, highlighting key offerings such as membership plans, workout classes and testimonials. With a focus on user experience, the design encourages visitors to explore the gym's benefits and take action by signing up or scheduling a visit.

TRAVEL AGENCY LANDING PAGE

I created an inviting and visually appealing Travel Agency Landing Page design that captures the essence of travel and adventure. The page showcases various travel packages, destinations, and services offered by the agency. It incorporates vibrant imagery and easy navigation to provide users with an intuitive experience, encouraging them to explore travel options and book their next getaway.
